

\$20,000 IS THE TARGET FOR RUN MELBOURNE 2009

RUNNER OR NOT - SIGN ON TO JOIN THE TEAM!

Dr Martin Harvey, a Governor of the Australian Spinal Research Foundation, ran in 'Run Melbourne' last year and raised over \$8,000 in support of the Foundation.

Martin raised the most money as an individual runner in the event which had the added benefit of publicity for Chiropractic.

In 2009, Martin and his team are determined to raise the most of all teams competing by forming the Spinal Research Team.

As a member of the chiropractic community, Martin is inviting you to support your profession by signing on now to be a member of the Team.

You can support the Spinal Research Team by signing on to:

- be a runner as part of the Spinal Research Team and get Sponsors
- register your practice as a supporting office and involve your patients as sponsors or runners
- register as an individual sponsor

At the recent Dynamic Growth Congress 2009, 12 runners and 17 practices signed up for Run Melbourne!

Simply sign up now by emailing Nicole Byrne at vivify@bigpond.net.au, or calling her on 0411 118 422. Alternatively, email the Australian Spinal Research Foundation at info@spinalresearch.com.au, or call 07 3808 4098.

Why not join the Team, have some fun, promote awareness of Chiropractic and support spinal research?
